GitHub link: <https://github.com/itsmetrunghieu/My-Website.github.io>

Disclaimer: Because lab 2 does not apply responsive, dark mode, and hover effect so I only submitted lab 3, I put a lot of effort into improving other pages such as projects, gallery, and contact page. Additionally, since the CSS code is too long and may not be effective when putting the code in the pdf, please kindly review the GitHub link (which I also made a host URL website)
